A DAZZLING BEACH COTTAGE ON THE MUMBAI SANDS DESIGNED BY AMBIKA HINDUJA

IN THE DETAILS

Founded in 2017, Jaipur-based Topstona is a designer surface brand that creates textured wall coverings using 3D stone cladding. Perfectly suited for contemporary living spaces, their Lusso collection (*pictured*) displays luxury and grandeur through the techniques and materials used. While the collection is inspired by the craftsmanship and architectural aesthetics of the Mughal era, the stone cladding has been given a contemporary look. The collection features a variety of patterns, including floral motifs, geometric shapes, celestial elements and more and is the result of a seamless blend of traditional workmanship and modern technology. THE GOLDEN AGE

The Senator collection by CERA is a premium range of sanitaryware, faucets, wellness products and mirrors. Curated by Italian designer Ettore Giordano, the pieces are designed keeping in mind the essentials of comfort and aesthetics. The washbasins and faucets are available with gold, silver, rose gold and copper embellishments. The Senator collection is on display at the CERA Style Studios in Ahmedabad, Hyderabad, Kochi, Bengaluru and Chandigarh. (senator.cera-india.com)

JAVIER SENOSIAIN

Built on top of a hill in Mexico City, the colourful exterior of this home designed by architect Javier Senosiain has twisting tunnel-like corridors connecting rooms and is all curves and sweeps. The bathroom seems to emerge from the walls, with cave-like proportions, enhanced by an overhead skylight. The mosaic bathtub appears like a natural indentation in the rock.
