### TOPSTONA

Topstona has come up with its latest surface called the Entwine collection which is inspired by the unique character of hand weaves. The series of twines and twists have been translated into enchanting stone surfaces from seamless travertine marble. Travertine is a form of limestone created by the deposition of mineral springs. The woven patterns have been carved into erratic travertine utilising the CNC technique and then hand-finished to form the beautiful creations of Entwine.

### BENT CHAIR

Bent Chair's newest range of rugs blends exquisite craftsmanship with intricate design. They have been hand-knotted and hand-tufted with every piece sheared to a smooth pile for an exceptionally soft feel underfoot, while beautifully capturing a classic yet contemporary look. The hand-knotted rugs are available in three variants — Persian knotted rugs, Turkish knotted rugs and Tibetan knotted rugs. These hand-tufted rugs are made by punching strands of wool into a canvas that is stretched on a frame with the help of a hand-operated tool. They are embellished with traditional motifs in complementary colours. The price for this collection ranges from ₹ 14,000 to ₹ 9,00,000.
