INDIA'S FIRST MAGAZINE ON THE TILE INDUSTRY

Enthralling textural charm on plain walls, each natural stone is sourced locally from Rajasthan and transformed into enchanting three-dimensional pieces of art that speak a global language.

Born in the heart of Jaipur and resonating with the city's unique identity of cherishing its local soul while growing forward with the current times, the textures are a way to enrich your décor and bring about an expression that is aligned with the beauty of nature.

Topstona, founded in 2017 in

Jaipur is a designer surface brand which creates tactile and textured brilliance in the form of beautiful wall coverings. Their collections are endowed with a textural charm that provide enhanced experiences of natural elements such as the waves of the ocean, the ripples in the skies or the rugged mountain terrains.

The Nero Collection is a series of contemporary monochromatic wall surfaces that replenishes the luxury and mystery in black. Natural black stone is given a new dimension and

Textural Brilliance

Topstona brings nature into your home with its textured collection inspired by natural elements

Texture is a fundamental element of mother nature which bestows the emotions of expression and sensation to the environment and hence, needs to be added back into modern day living spaces. Imbibing the essence and touch of waves of the ocean, the ripples in the skies to the rugged mountain terrains; Topstona creates tactile and textured brilliance in the form of beautiful wall coverings. The brand develops art and luxury out of industrial materials, through the unique and remarkable balance of man and machine. Outcome of which is magnificent stone claddings that are a product of this integrative collective collaboration between designers, artisans, engineers and architects.

texture by chiseling out symphonious geometric patterns and floral designs which draw inspiration from the creations of Earth. Breaking the monotony of plain surfaces, this collection explores the untwined beauty in the textures and irregularities of nature.

Bianco Luminose is a collection of exotic and lustrous marble wall

claddings in the shades of opulent whites. Each stone surface is precisely crafted with cut work to form translucence which allows illumination when backlit. The surface captures the essence and emotions of moving light trails and spots of blur which resembles the unpredictable motion of life.

The Lusso collection takes inspiration

from the enchanting Mughal craftsmanship and opulence in architectural design. "Floral patterns and motifs reminiscing the walls and facades of architectural marvels like Taj Mahal are illustrated in the form of luxurious inlay and gemstone work claddings, created by the harmonious combination of traditional workmanship and new technology."
